CinderBio

CERTIFICATE OF ANALYSIS
PRODUCT NAME: KRAKATOA
REFERENCE NUMBER: HTA-KA-PC100 (CB23726)
LOT NUMBER: 3728700

SPECIFICATIONS:

VISUAL: Clear aqueous solution
ACTIVITY*: 10 U/ µL
PURITY: ≥ 99% of detectable protease activity on a gelatin zymogram^{+}
SHELF LIFE: > 2 years at ambient temperature in a pH3 aqueous solution

RESULTS:

VISUAL: Clear aqueous solution
ACTIVITY*: 9.52 U/ µL
PURITY: 99% of detectable protease activity on a gelatin zymogram^{+}
SHELF LIFE: > 2 years at ambient temperature in a pH3 aqueous solution

1 U of activity is defined as the amount of enzyme that will release 1 micro-mole of tyrosine equivalents at 80°C, pH 3, in 15-minutes with a hemoglobin substrate
$^{+}$Zymography was performed using a 0.1% gelatin substrate concentration, incubated for 3.5 hrs at pH3 with at least 100HUTs loaded onto the gel
