

**CERTIFICATE OF ANALYSIS**  
**PRODUCT NAME:** VESUVIUS  
**REFERENCE NUMBER:** CB14057  
**LOT NUMBER:** 612276

**SPECIFICATIONS:**

VISUAL: Clear aqueous solution

ACTIVITY\*: 30 HUT/  $\mu$ L

PURITY:  $\geq$  99% of detectable protease activity on a gelatin zymogram<sup>+</sup>

SHELF LIFE: > 2 years at ambient temperature in a pH3 aqueous solution

**RESULTS:**

VISUAL: Clear aqueous solution

ACTIVITY\*: 32.71 HUT/  $\mu$ L

PURITY: 99% of detectable protease activity on a gelatin zymogram<sup>+</sup>

SHELF LIFE: > 2 years at ambient temperature in a pH3 aqueous solution

\*1 HUT of activity is defined as the amount of enzyme that will release 1 micro- mole of tyrosine equivalents at 80°C, pH 3, in 15-minutes with a hemoglobin substrate\*

<sup>+</sup>Zymography was performed using a 0.1% gelatin substrate concentration, incubated for 18 hrs at pH3 with at least 100HUTs loaded onto the gel
